AuthentiGuard™ Pantograph 4000

Tricking even the most sophisticated scanners and copiers, AuthentiGuard™ Pantograph 4000 involves the printing of hidden words (e.g., VOID, COPY) on paper as a light colored background. This paper is meant for printing one's valuable documents on any standard office printer. When the original document is scanned or copied, the hidden word pattern becomes visible on the duplicate. The end result – a clearly distinguishable copy that no one will be able to pass as an original document.

Fine Line Artwork

Our exquisitely detailed fine-line borders and background designs not only add a touch of elegance to documents, but also provide an additional layer of defense against illegal copying, as the computer-generated detail is extremely difficult to capture and reproduce.
